

aucs network - results

gain achieved by degree Centrality s.s. method on aucs network; protocols from left: OR AND

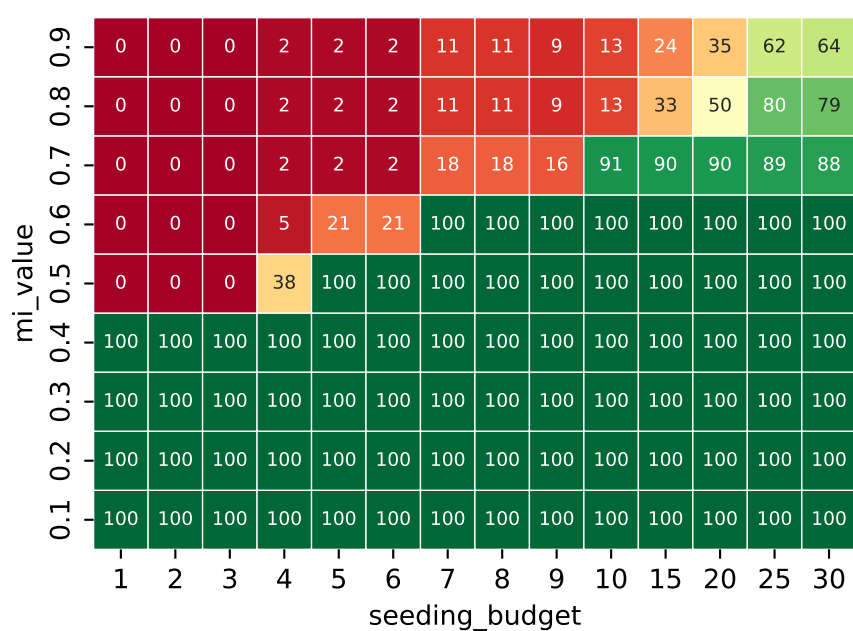

gain achieved by k_shell s.s. method on aucs network; protocols from left: OR AND

gain achieved by k_shell_mln s.s. method on aucs network; protocols from left: OR AND

gain achieved by neighbourhood_2_hop_size s.s. method on aucs network; protocols from left: OR AND

diffusion_len achieved by page_rank s.s. method on aucs network; protocols from left: OR AND

gain achieved by page_rank_mln s.s. method on aucs network; protocols from left: OR AND

gain achieved by random s.s. method on aucs network; protocols from left: OR AND

gain achieved by vote_rank s.s. method on aucs network; protocols from left: OR AND

diffusion_len achieved by vote_rank_mln s.s. method on aucs network; protocols from left: OR AND

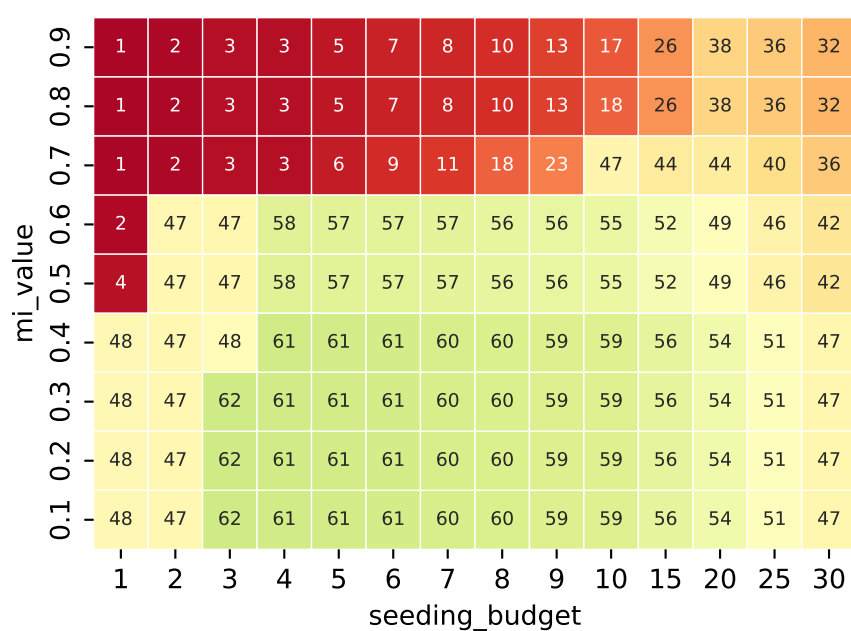

ckm_physicians network - results

diffusion_len achieved by k_shell s.s. method on ckm_physicians network; protocols from left: OR AND

gain achieved by k_shell_mln s.s. method on ckm_physicians network; protocols from left: OR AND

diffusion_len achieved by k_shell_mln s.s. method on ckm_physicians network; protocols from left: OR AND

gain achieved by neighbourhood_2_hop_size s.s. method on ckm_physicians network; protocols from left: OR AND

gain achieved by neighbourhood_size s.s. method on ckm_physicians network; protocols from left: OR AND

diffusion_len achieved by neighbourhood_size s.s. method on ckm_physicians network; protocols from left: OR AND

diffusion_len achieved by page_rank s.s. method on ckm_physicians network; protocols from left: OR AND

gain achieved by random s.s. method on ckm_physicians network; protocols from left: OR AND

er1 network - results

diffusion_len achieved by degree centrality s.s. method on er1 network; protocols from left: OR AND

gain achieved by greedy s.s. method on er1 network; protocols from left:

diffusion_len achieved by greedy s.s. method on er1 network; protocols from left:

gain achieved by k_shell s.s. method on er1 network; protocols from left: OR AND

diffusion_len achieved by k_shell s.s. method on er1 network; protocols from left: OR AND

gain achieved by k_shell_mln s.s. method on er1 network; protocols from left: OR AND

diffusion_len achieved by k_shell_mln s.s. method on er1 network; protocols from left: OR AND

diffusion_len achieved by neighbourhood_2_hop_size s.s. method on er1 network; protocols from left: OR AND

diffusion_len achieved by neighbourhood_size s.s. method on er1 network; protocols from left: OR AND

diffusion_len achieved by random s.s. method on er1 network; protocols from left: OR AND

gain achieved by vote_rank s.s. method on er1 network; protocols from left: OR AND

gain achieved by vote_rank_mln s.s. method on er1 network; protocols from left: OR AND

diffusion_len achieved by vote_rank_mln s.s. method on er1 network; protocols from left: OR AND

er2 network - results

diffusion_len achieved by degree centrality s.s. method on er2 network; protocols from left: OR AND

gain achieved by greedy s.s. method on er2 network; protocols from left:

diffusion_len achieved by greedy s.s. method on er2 network; protocols from left:

gain achieved by k_shell s.s. method on er2 network; protocols from left: OR AND

diffusion_len achieved by k_shell_mln s.s. method on er2 network; protocols from left: OR AND

diffusion_len achieved by neighbourhood_size s.s. method on er2 network; protocols from left: OR AND

diffusion_len achieved by page_rank s.s. method on er2 network; protocols from left: OR AND

diffusion_len achieved by page_rank_mln s.s. method on er2 network; protocols from left: OR AND

gain achieved by random s.s. method on er2 network; protocols from left: OR AND

gain achieved by vote_rank s.s. method on er2 network; protocols from left: OR AND

er3 network - results

gain achieved by degree centrality s.s. method on er3 network; protocols from left: OR AND

gain achieved by greedy s.s. method on er3 network; protocols from left:

diffusion_len achieved by greedy s.s. method on er3 network; protocols from left:

gain achieved by k_shell s.s. method on er3 network; protocols from left: OR AND

gain achieved by k_shell_mln s.s. method on er3 network; protocols from left: OR AND

gain achieved by neighbourhood_2_hop_size s.s. method on er3 network; protocols from left: OR AND

gain achieved by neighbourhood_size s.s. method on er3 network; protocols from left: OR AND

diffusion_len achieved by neighbourhood_size s.s. method on er3 network; protocols from left: OR AND

gain achieved by page_rank s.s. method on er3 network; protocols from left: OR AND

diffusion_len achieved by page_rank s.s. method on er3 network; protocols from left: OR AND

gain achieved by page_rank_mln s.s. method on er3 network; protocols from left: OR AND

gain achieved by random s.s. method on er3 network; protocols from left: OR AND

gain achieved by vote_rank_mln s.s. method on er3 network; protocols from left: OR AND

er5 network - results

gain achieved by greedy s.s. method on er5 network; protocols from left:

diffusion_len achieved by greedy s.s. method on er5 network; protocols from left:

gain achieved by k_shell_mln s.s. method on er5 network; protocols from left: OR AND

diffusion_len achieved by page_rank_mln s.s. method on er5 network; protocols from left: OR AND

gain achieved by vote_rank_mln s.s. method on er5 network; protocols from left: OR AND

eu_trans_1 network - results

diffusion_len achieved by degree centrality s.s. method on eu_trans_1 network; protocols from left: OR AND

diffusion_len achieved by greedy s.s. method on eu_trans_1 network; protocols from left: OR AND

gain achieved by k_shell_mln s.s. method on eu_trans_1 network; protocols from left: OR AND

diffusion_len achieved by neighbourhood_2_hop_size s.s. method on eu_trans_1 network; protocols from left: OR AND

diffusion_len achieved by neighbourhood_size s.s. method on eu_trans_1 network; protocols from left: OR AND

diffusion_len achieved by page_rank s.s. method on eu_trans_1 network; protocols from left: OR AND

gain achieved by page_rank_mln s.s. method on eu_trans_1 network; protocols from left: OR AND

diffusion_len achieved by page_rank_mln s.s. method on eu_trans_1 network; protocols from left: OR AND

diffusion_len achieved by random s.s. method on eu_trans_1 network; protocols from left: OR AND

diffusion_len achieved by vote_rank s.s. method on eu_trans_1 network; protocols from left: OR AND

diffusion_len achieved by vote_rank_mln s.s. method on eu_trans_1 network; protocols from left: OR AND

eu_transportation network - results

diffusion_len achieved by degree_centrality s.s. method on eu_transportation network; protocols from left: OR AND

diffusion_len achieved by greedy s.s. method on eu_transportation network; protocols from left: OR AND

gain achieved by k_shell s.s. method on eu_transportation network; protocols from left: OR AND

diffusion_len achieved by k_shell s.s. method on eu_transportation network; protocols from left: OR AND

diffusion_len achieved by k_shell_mln s.s. method on eu_transportation network; protocols from left: OR AND

diffusion_len achieved by neighbourhood_size s.s. method on eu_transportation network; protocols from left: OR AND

gain achieved by page_rank_mln s.s. method on eu_transportation network; protocols from left: OR AND

diffusion_len achieved by page_rank_mln s.s. method on eu_transportation network; protocols from left: OR AND

gain achieved by random s.s. method on eu_transportation network; protocols from left: OR AND

gain achieved by vote_rank s.s. method on eu_transportation network; protocols from left: OR AND

diffusion_len achieved by vote_rank s.s. method on eu_transportation network; protocols from left: OR AND

diffusion_len achieved by vote_rank_mln s.s. method on eu_transportation network; protocols from left: OR AND

lazega network - results

gain achieved by k_shell s.s. method on lazega network; protocols from left: OR AND

gain achieved by k_shell_mln s.s. method on lazega network; protocols from left: OR AND

diffusion_len achieved by neighbourhood_2_hop_size s.s. method on lazega network; protocols from left: OR AND

gain achieved by page_rank_mln s.s. method on lazega network; protocols from left: OR AND

gain achieved by vote_rank s.s. method on lazega network; protocols from left: OR AND

diffusion_len achieved by vote_rank_mln s.s. method on lazega network; protocols from left: OR AND

sf1 network - results

gain achieved by degree_centrality s.s. method on sf1 network; protocols from left: OR AND

diffusion_len achieved by degree centrality s.s. method on sf1 network; protocols from left: OR AND

gain achieved by greedy s.s. method on sf1 network; protocols from left:

diffusion_len achieved by greedy s.s. method on sf1 network; protocols from left:

gain achieved by k_shell s.s. method on sf1 network; protocols from left: OR AND

gain achieved by k_shell_mln s.s. method on sf1 network; protocols from left: OR AND

gain achieved by neighbourhood_2_hop_size s.s. method on sf1 network; protocols from left: OR AND

gain achieved by neighbourhood_size s.s. method on sf1 network; protocols from left: OR AND

diffusion_len achieved by neighbourhood_size s.s. method on sf1 network; protocols from left: OR AND

gain achieved by page_rank s.s. method on sf1 network; protocols from left: OR AND

gain achieved by page_rank_mln s.s. method on sf1 network; protocols from left: OR AND

gain achieved by vote_rank s.s. method on sf1 network; protocols from left: OR AND

gain achieved by vote_rank_mln s.s. method on sf1 network; protocols from left: OR AND

diffusion_len achieved by vote_rank_mln s.s. method on sf1 network; protocols from left: OR AND

sf2 network - results

gain achieved by degree centrality s.s. method on sf2 network; protocols from left: OR AND

gain achieved by greedy s.s. method on sf2 network; protocols from left:

diffusion_len achieved by greedy s.s. method on sf2 network; protocols from left:

gain achieved by k_shell s.s. method on sf2 network; protocols from left: OR AND

gain achieved by k_shell_mln s.s. method on sf2 network; protocols from left: OR AND

diffusion_len achieved by k_shell_mln s.s. method on sf2 network; protocols from left: OR AND

gain achieved by neighbourhood_2_hop_size s.s. method on sf2 network; protocols from left: OR AND

gain achieved by neighbourhood_size s.s. method on sf2 network; protocols from left: OR AND

diffusion_len achieved by neighbourhood_size s.s. method on sf2 network; protocols from left: OR AND

gain achieved by page_rank s.s. method on sf2 network; protocols from left: OR AND

gain achieved by page_rank_mln s.s. method on sf2 network; protocols from left: OR AND

diffusion_len achieved by page_rank_mln s.s. method on sf2 network; protocols from left: OR AND

gain achieved by random s.s. method on sf2 network; protocols from left: OR AND

diffusion_len achieved by vote_rank s.s. method on sf2 network; protocols from left: OR AND

gain achieved by vote_rank_mln s.s. method on sf2 network; protocols from left: OR AND

sf3 network - results

gain achieved by degree_centrality s.s. method on sf3 network; protocols from left: OR AND

gain achieved by greedy s.s. method on sf3 network; protocols from left:

diffusion_len achieved by greedy s.s. method on sf3 network; protocols from left:

gain achieved by k_shell s.s. method on sf3 network; protocols from left: OR AND

diffusion_len achieved by k_shell s.s. method on sf3 network; protocols from left: OR AND

gain achieved by k_shell_mln s.s. method on sf3 network; protocols from left: OR AND

gain achieved by neighbourhood_2_hop_size s.s. method on sf3 network; protocols from left: OR AND

diffusion_len achieved by neighbourhood_2_hop_size s.s. method on sf3 network; protocols from left: OR AND

gain achieved by neighbourhood_size s.s. method on sf3 network; protocols from left: OR AND

gain achieved by page_rank s.s. method on sf3 network; protocols from left: OR AND

gain achieved by page_rank_mln s.s. method on sf3 network; protocols from left: OR AND

gain achieved by random s.s. method on sf3 network; protocols from left: OR AND

gain achieved by vote_rank s.s. method on sf3 network; protocols from left: OR AND

gain achieved by vote_rank_mln s.s. method on sf3 network; protocols from left: OR AND

diffusion_len achieved by vote_rank_mln s.s. method on sf3 network; protocols from left: OR AND

sf5 network - results

gain achieved by degree_centrality s.s. method on sf5 network; protocols from left: OR AND

gain achieved by greedy s.s. method on sf5 network; protocols from left:

diffusion_len achieved by greedy s.s. method on sf5 network; protocols from left:

gain achieved by k_shell s.s. method on sf5 network; protocols from left: OR AND

gain achieved by k_shell_mln s.s. method on sf5 network; protocols from left: OR AND

gain achieved by neighbourhood_2_hop_size s.s. method on sf5 network; protocols from left: OR AND

diffusion_len achieved by neighbourhood_2_hop_size s.s. method on sf5 network; protocols from left: OR AND

gain achieved by neighbourhood_size s.s. method on sf5 network; protocols from left: OR AND

gain achieved by page_rank s.s. method on sf5 network; protocols from left: OR AND

diffusion_len achieved by page_rank s.s. method on sf5 network; protocols from left: OR AND

gain achieved by page_rank_mln s.s. method on sf5 network; protocols from left: OR AND

diffusion_len achieved by page_rank_mln s.s. method on sf5 network; protocols from left: OR AND

gain achieved by vote_rank s.s. method on sf5 network; protocols from left: OR AND

gain achieved by vote_rank_mln s.s. method on sf5 network; protocols from left: OR AND

diffusion_len achieved by vote_rank_mln s.s. method on sf5 network; protocols from left: OR AND
